15.Multidisciplinary / interdisciplinary

Dr. Gour Mohan Roy College is affiliated with The University of Burdwan, adhering to its academic frameworks. The college adopts the Comprehensive Choice Based Credit System (CBCS) syllabus provided by the university, which fosters academic adaptability through an interdisciplinary approach. This curriculum structure encompasses Core Courses, Discipline Specific Electives, Generic Electives, Skill Enhancement Courses, and Ability Enhancement Compulsory Courses at the undergraduate level, ensuring a blend of theoretical knowledge and practical skills. Consequently, Dr. Gour Mohan Roy College offers twelve undergraduate programs with diverse course combinations, empowering students to tailor their academic paths according to their interests and capabilities.

16.Academic bank of credits (ABC):

The introduction of the Academic Bank of Credits under the proposed National Education Policy aims to foster a multidisciplinary and flexible approach to learning, with the goal of enhancing qualifications and improving the gross enrolment ratio (GER). However, implementation of such initiatives within individual states, particularly in affiliated colleges like Dr. Gour Mohan Roy College, which operates under the auspices of The University of Burdwan, often faces delays due to the concurrent nature of education policy. As a non-autonomous institution, Dr. Gour Mohan Roy College must coordinate with and adhere to the policies of The University of Burdwan. While the college fully supports the Academic Bank of Credit System, based on a "Distributive and Flexible Teaching Learning" model, it awaits approval to integrate this system. Nonetheless, the college possesses the necessary infrastructure to support a well-maintained credit system. Under the Choice Based Credit System, the college empowers its teachers to

design curricula and pedagogical approaches that promote a multidisciplinary and holistic academic experience. Initial textbook references, assignments, and assessments are structured to encourage critical and analytical thinking among students, enabling them to align their studies with their individual interests and orientations. To address dropout rates, teachers always provide special assistance for students who need to repeat a semester. Recognizing the financial challenges faced by many rural students, the college extends support to those experiencing financial emergencies, facilitating their re-registration for examinations even after a hiatus, thus enabling them to resume their educational pursuits.

17.Skill development:

Ever since its establishment, and especially in the last five years, Dr. Gour Mohan Roy College has undertaken some measures pertaining to skill development of the learners. Providing soft skill and light skill trainings to the learners such as employability training programme in collaboration with Webel Technology Limited. Teaching is all about developing skills vis-à-vis communicating social and human values to the learners in various ways. Along with such student centric efforts outside the regular curriculum, a wholehearted endeavor is made within the framework of the syllabi to impart and inculcate value-based education among the students. While literature subjects like Bengali, English, Sanskrit, etc., are directly related to imparting teachings related to human values and human ethics, subjects in the social science group like Political Science, Philosophy, History, etc., are engaged in imparting teachings related to constitutional values, ethics, citizenship rights and tradition. Commerce as a discipline is contributing a lot in the practical applications of GST, TALLY, ITR Filling and financial reporting system etc. Geography in this regard involves software applications in mapping such as QGIS to make the students independent and engaged in cartographic techniques. The department of Political Science also involves the students in Youth Parliament Competition every year. It helps students to gather knowledge of the democratic process of the country.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

Education, primarily in a multiethnic and multicultural nation like India, necessitates the adoption of well-designed curriculum that include teaching-learning methods in Indian Languages, culture, etc. It calls for appropriate measures to instill a sense of national integration, and sensitivity to cultural and linguistic

diversity is crucial in fostering such a notion. Dr. Gour Mohan Roy College plays a pivotal role in this direction. It caters to the academic interests of a large body of students coming from diverse socio- ethnic and religious groups, and fosters an inclusive environment, thereby promoting a sense of harmony and fellow-feeling. Affiliated to The University of Burdwan, Gour Mohan Roy College follows the curricula prepared by its parent university. The CBCS syllabi implemented by the latter have ample scope for an interdisciplinary approach to education as it offers a range of courses, specially in subjects like Bengali and Sanskrit, that ensure strategic integration of the Indian knowledge system. The CBCS curricula are aptly designated to inculcate human values and professional ethics among students.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

The National Education Policy aims to create an outcome-based education where the institutions are expected to design a curriculum based on innovation and skill-based learning. Keeping this aspect in mind, Dr. Gour Mohan Roy College, under the CBCS, is following programmes of study which provide a pivotal platform in delivering deeper insight of the subjects and an interdisciplinary and holistic approach to study. The college, through regular assessments from the students, evaluates the progress of their knowledge, skills, research attitudes and conceptualization of the courses taught. The three-year degree courses of B.A. and B.Com. are structured in a fashion where the outcomes can be measured through knowledge building, comprehensive and analytical skills. T he students are trained to acquire skills of synthesizing and evaluating the ideas and concepts which will offer an understanding of both normative and empirical virtues of the world. Therefore, the special lectures and seminars held by the three streams encourage the students of all disciplines to attend the talks so that they can have an all-inclusive multidisciplinary approach to study. Along with that, the college also arranges for training from WEBEL so that besides moral, financial security can also be ensured. The departmental's seminar, help in having an empirical mindset about Technical, Economical, Taxation, Intellectual Property Rights, Socio-political development, Communication skills and Environmental fortifications going on around the globe.

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

In fostering a more sustainable and eco-conscious campus, Dr. Gour Mohan Roy College promotes responsible waste management practices among both faculty and students. Typically, waste generated on campus is sorted into three distinct categories: Solid Waste, Liquid Waste, and E-Waste.

Solid Waste Management:All solid materials discarded in their original state are classified as solid waste. The college has implemented a system to segregate such solid waste into two separate containers—one for biodegradable and another for non-biodegradable waste. Various dust bins labeled accordingly have been strategically placed across the campus to facilitate waste disposal. Periodically, the accumulated waste is safely disposed of by emptying the bins into dedicatedcontainers provided by the panchayats.

Liquid Waste Management:The college has implemented infrastructure to prevent water wastage through a sophisticated soft tank system. This initiative not only conserves water but also fosters an environmentally friendly atmosphere within the campus. Such proactive measures reflect the institution's commitment to sustainability and responsible resource management.

E-Waste Management:Various types of e-waste, including non-functional computers, computer spare parts, inverter batteries, discarded electrical appliances, damaged bulbs, lights, and other non-functional electronic equipment, are gathered and stored in assigned rooms for annual disposal. However, damaged yet repairable computers and valuable electronic equipment undergo repairs for reuse.

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste

management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

In fostering a more sustainable and eco-conscious campus, Dr. Gour Mohan Roy College promotes responsible waste management practices among both faculty and students. Typically, waste generated on campus is sorted into three distinct categories: Solid Waste, Liquid Waste, and E-Waste.

Solid Waste Management:All solid materials discarded in their original state are classified as solid waste. The college has implemented a system to segregate such solid waste into two separate containers—one for biodegradable and another for non-biodegradable waste. Various dust bins labeled accordingly have been strategically placed across the campus to facilitate waste disposal. Periodically, the accumulated waste is safely disposed of by emptying the bins into dedicatedcontainers provided by the panchayats.

Liquid Waste Management:The college has implemented infrastructure to prevent water wastage through a sophisticated soft tank system. This initiative not only conserves water but also fosters an environmentally friendly atmosphere within the campus. Such proactive measures reflect the institution's commitment to sustainability and responsible resource management.

E-Waste Management:Various types of e-waste, including non-functional computers, computer spare parts, inverter batteries, discarded electrical appliances, damaged bulbs, lights, and other non-functional electronic equipment, are gathered and stored in assigned rooms for annual disposal. However, damaged yet repairable computers and valuable electronic equipment undergo repairs for reuse.

7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

The institution prioritizes enhancing the academic standards of its students, particularly those who are first-generation learners from minority and disadvantaged backgrounds, to ensure their equitable standing with students from other esteemed colleges within the state and across the country. In addition to traditional lectures, teachers employ audio-visual methods to create engaging and effective learning experiences, a practice which proved particularly fruitful during the challenges posed by the Covid-19 pandemic.

The diversity of students, encompassing various socio-economic, cultural, linguistic, communal, and religious backgrounds, enriches the fabric of the college community. The college administration endeavors to harness the potential of this diverse student body to bring honor to both the institution and the local community. Each year, students from the college participate in university-level and state-level sports and athletics competitions, achieving notable success.

Furthermore, the college organizes blood donation camps where students and faculty members voluntarily contribute, underscoring their commitment to societal welfare. Additionally, several departments regularly host student seminars on a wide range of contemporary issues, fostering dialogue and critical thinking among the student body.

With its rigorous curriculum various approaches have been taken to enable students to meet their individual needs with its experienced faculty.

More than half of the total students hail from underprivileged backgrounds and minority communities. The college is committed to addressing the academic requirements of its diverse students, including those who are advanced learners and those facing socio-economic challenges. To support the needs of students from disadvantaged backgrounds, the college has established a dedicated SC, ST, and Minority cell overseen by a full-time faculty member.
